expires April 22

The Industry's Only
Truly 100% Natural
SPF Lip Balm

Peppermint

Orange Slice

Original

Honey

Most lip balms that claim to be "natural" are actually loaded with artificial sun screen ingredients, colors, and flavors. New EcoBalm™ SPF10 features **zinc oxide, nature's truly natural sun screen**, and is enriched with natural soy, beeswax, shea butter, vitamin E, sunflower oil, cocoa butter, aloe, and natural flavors. That's it—pure and simple.
